Portfolio Change Log

Document Purpose

This changelog serves as a clear and concise record of updates made to my frontend portfolio. It tracks visual, functional, and content-related changes across versions, with the goal of:

- Documenting design updates, UI/UX improvements, and accessibility enhancements
- Tracking new sections, project additions, or layout refinements
- Providing transparency into how the portfolio evolves over time
- Supporting maintenance and version control
- Demonstrating attention to detail and a thoughtful development process

This log is primarily intended for personal reference, potential employers, and collaborators who may review the project's development history.

[v1.1.3] 2025-06-16

Fixed

- Broken project summaries link on resume PDF
- Missing bullet on page 2 of Archived Project Summaries PDF

Updated

- Replaced resume and archive PDFs with corrected versions
